

HE-R10

Planar Version

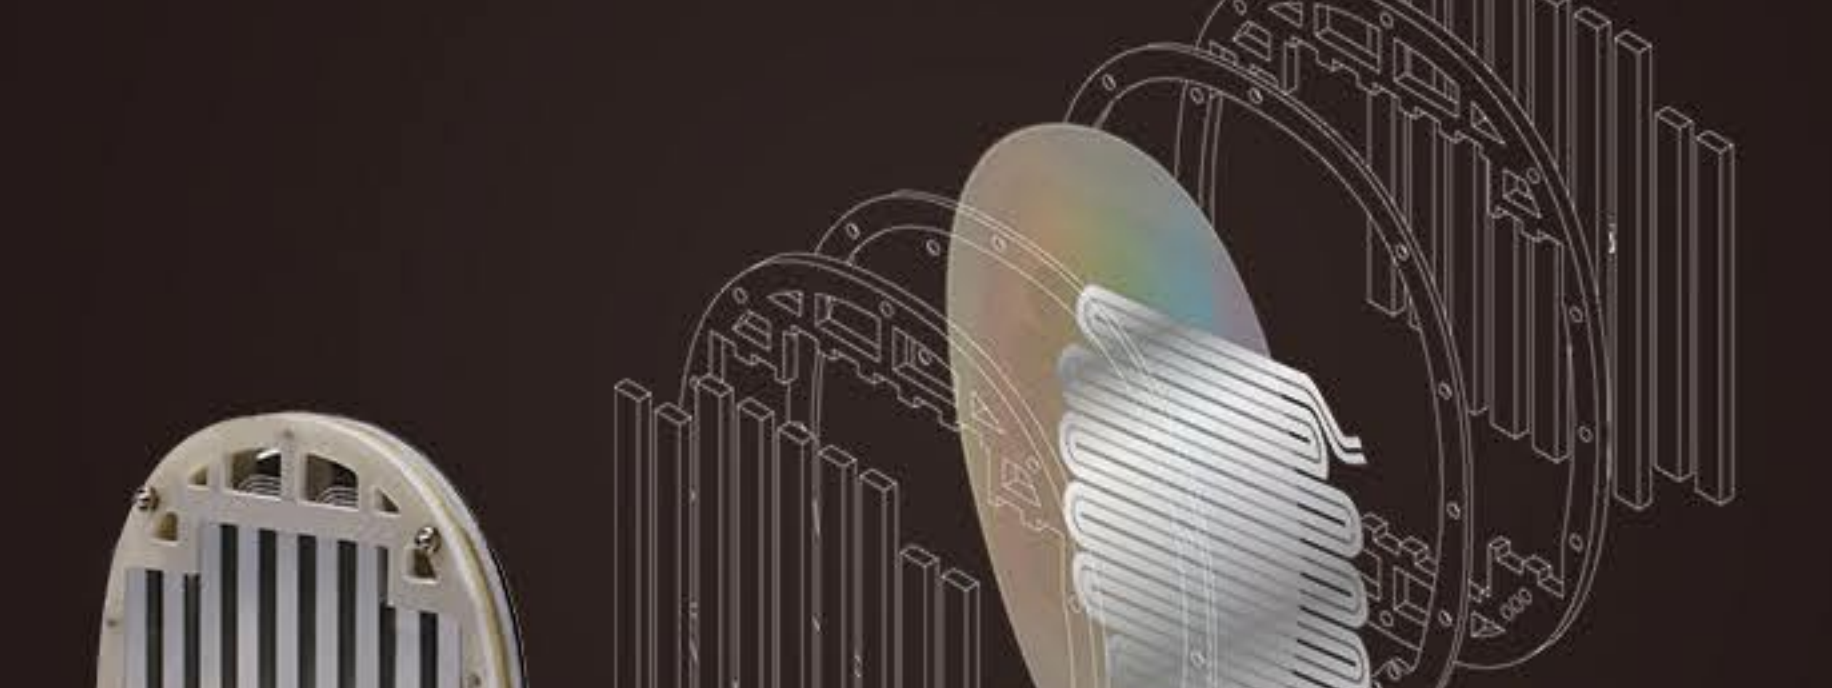

· HIFIMAN first developed its closed-back planar headphones in 2012

· After several attempts to develop a closed-back headphone worthy of the HIFIMAN name, the company turned its attention to open-back planar headphones that quickly became some of the most successful products on the market

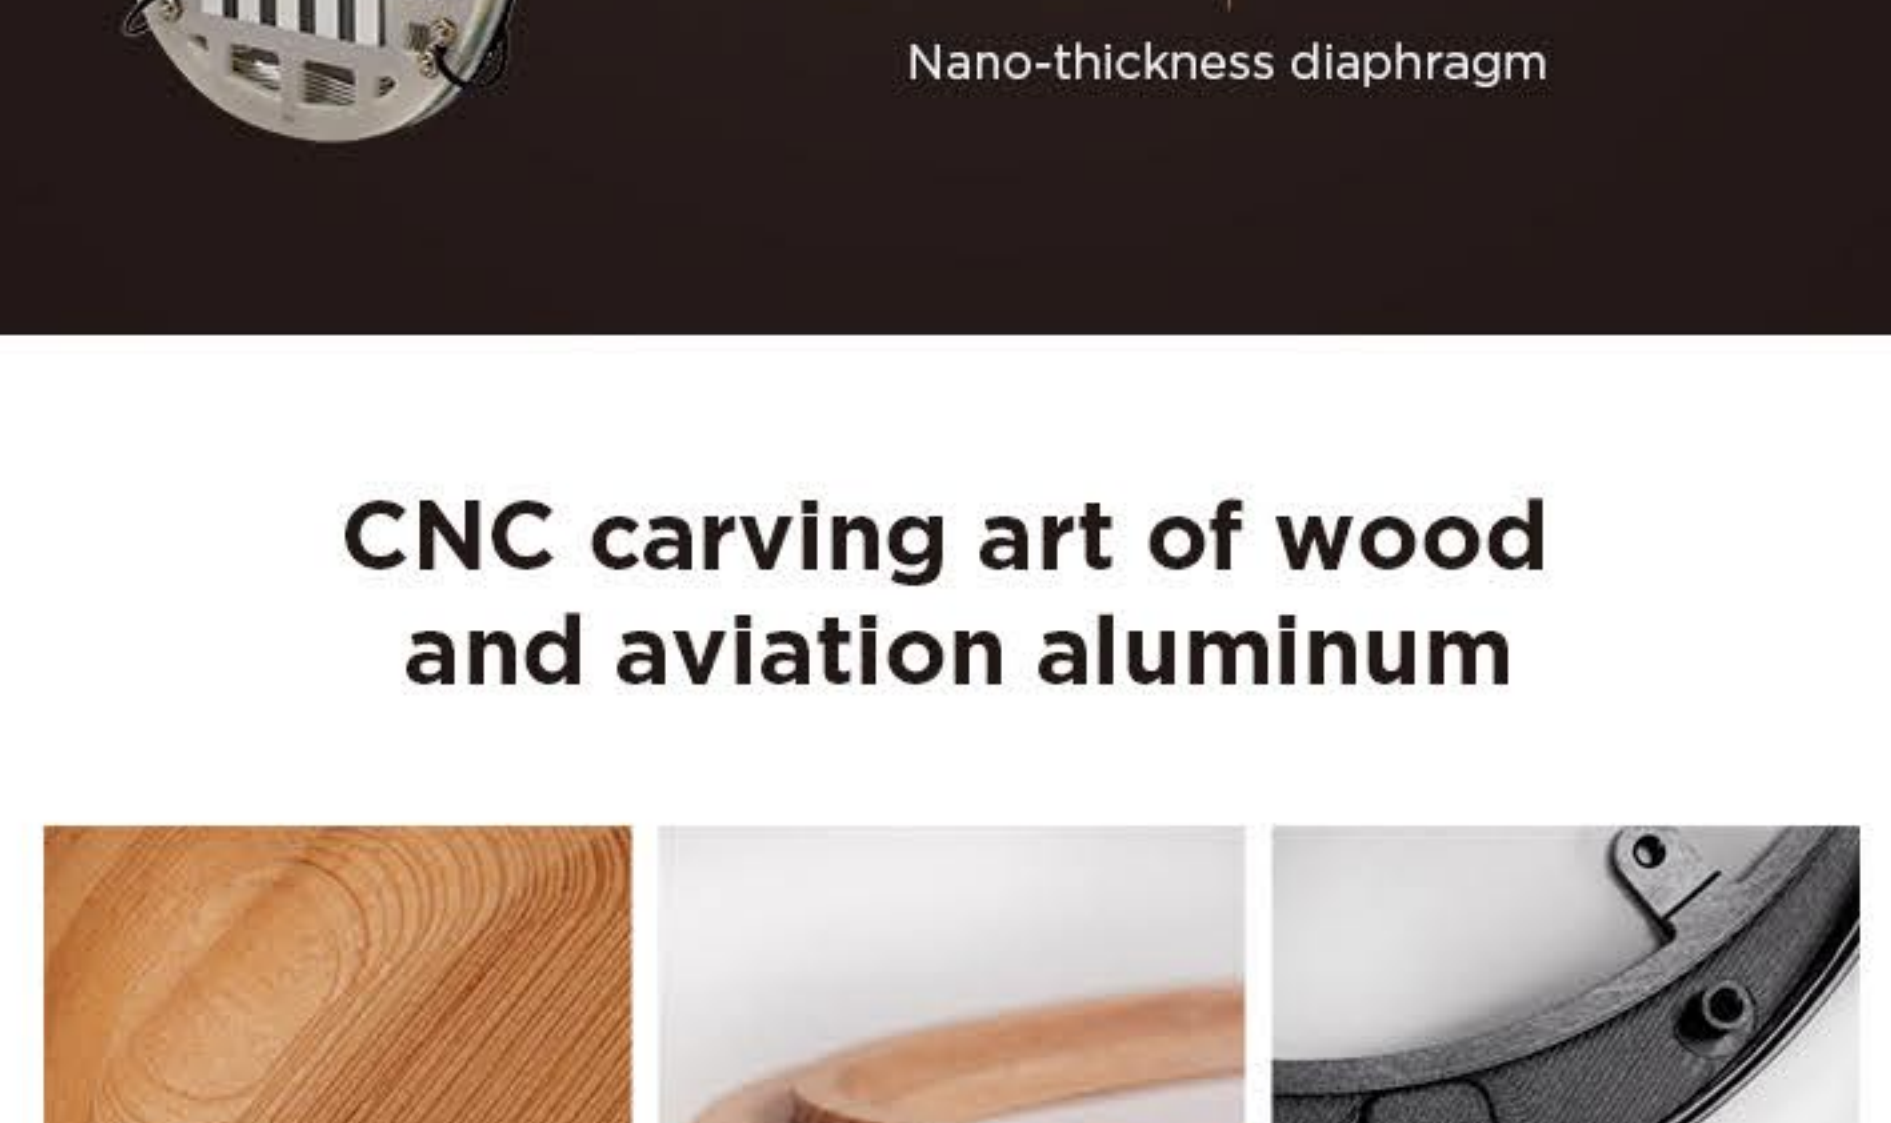

· In 2018, the company returned to the development of closed-back models, leading to a design breakthrough the following year.

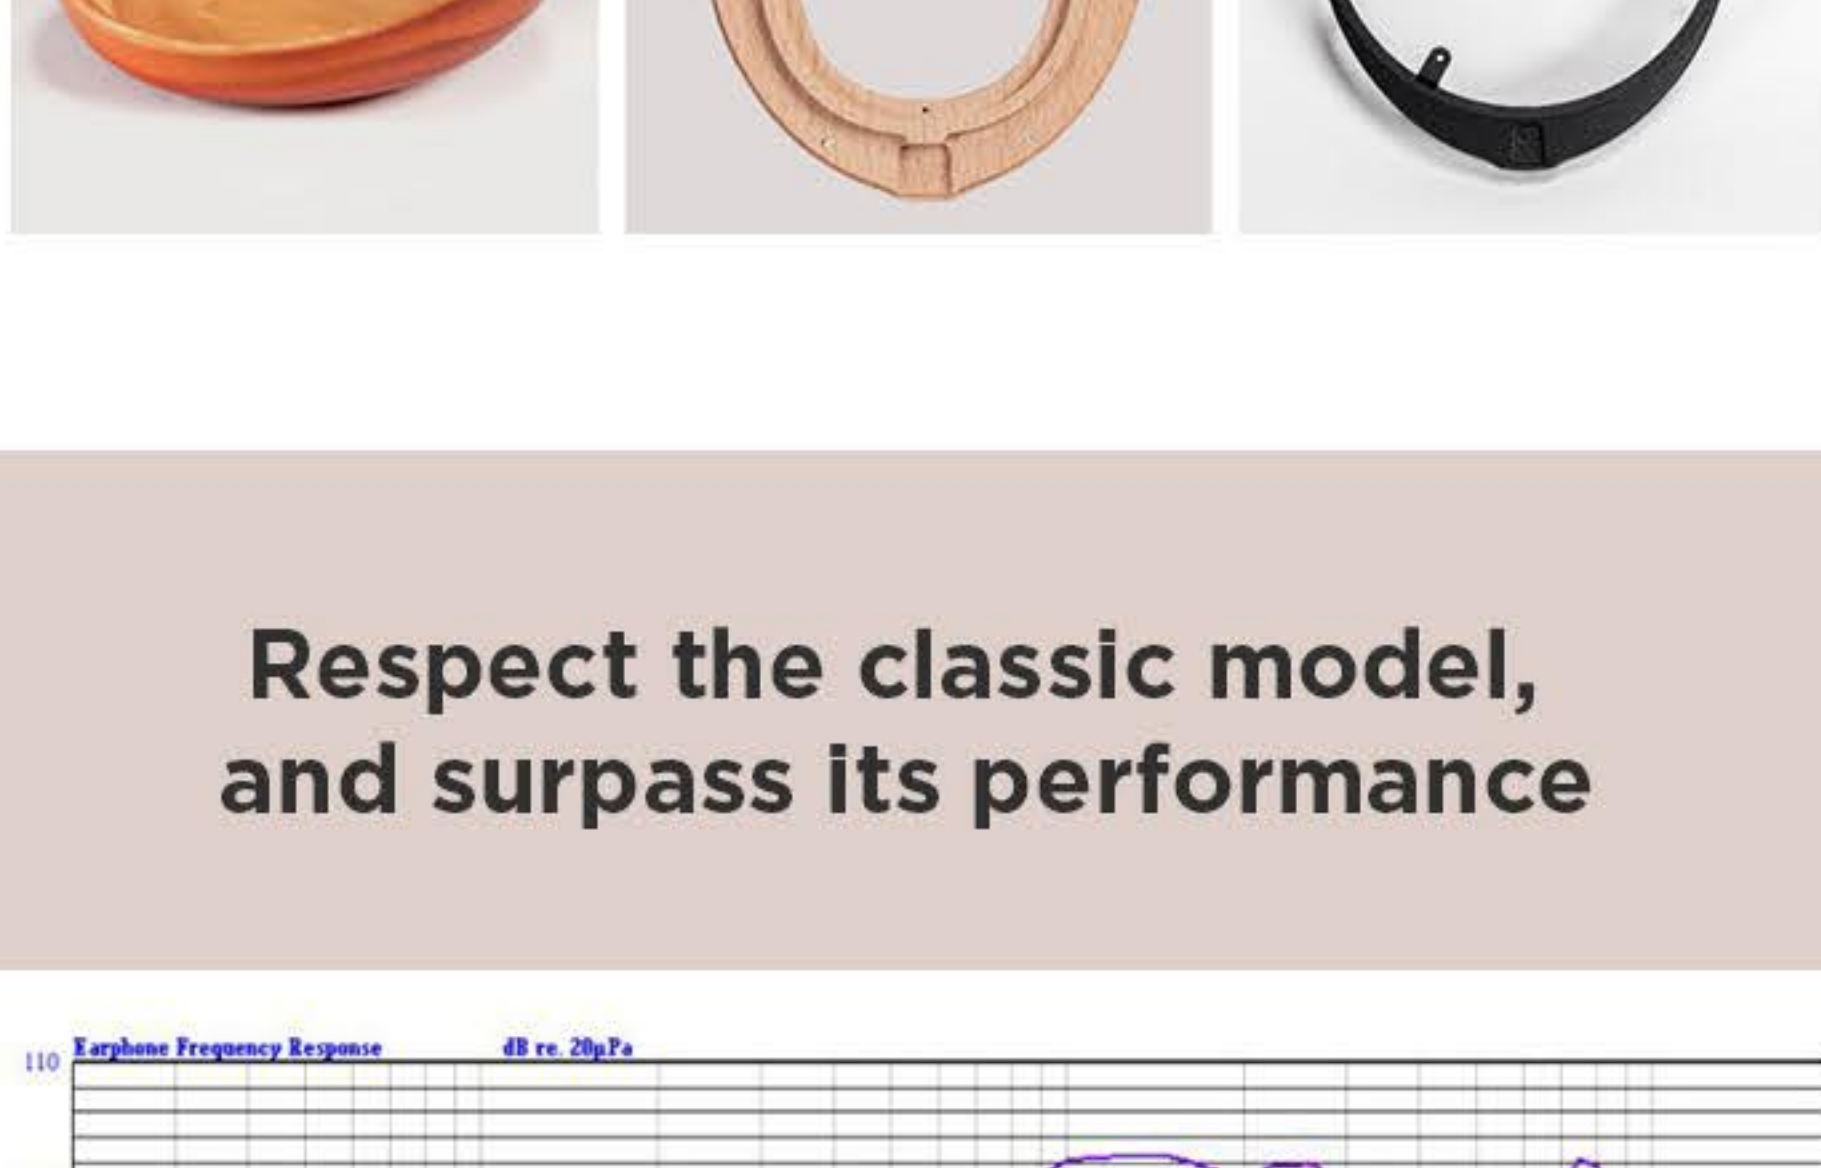

The wooden ear cup's large internal space brings sufficient volume and "breathing room" to the powerful driver.

True nanometer thickness diaphragm

CNC carving art of wood and aviation aluminum

Respect the classic model, and surpass its performance

Input Options

· Wired

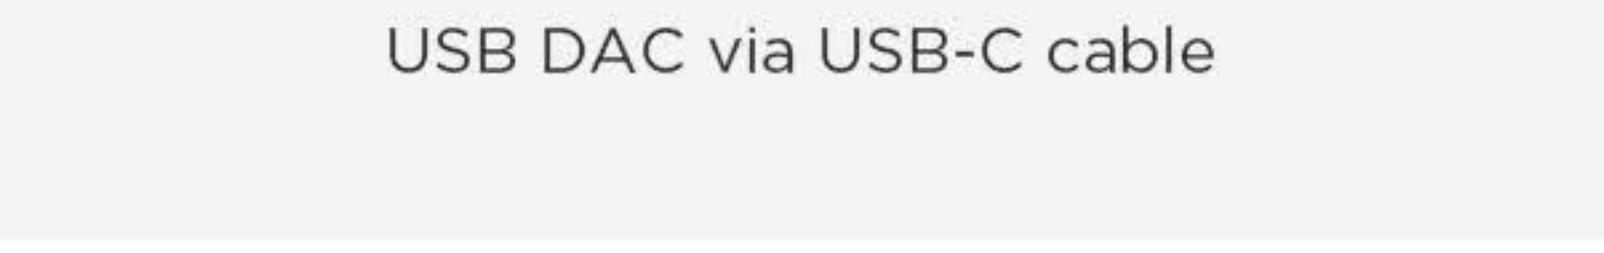

Traditional wired 3.5mm input
With 3.5mm to 6.35mm connector

· BlueMini (Optional)

Bluetooth

A variety of HD Bluetooth protocol

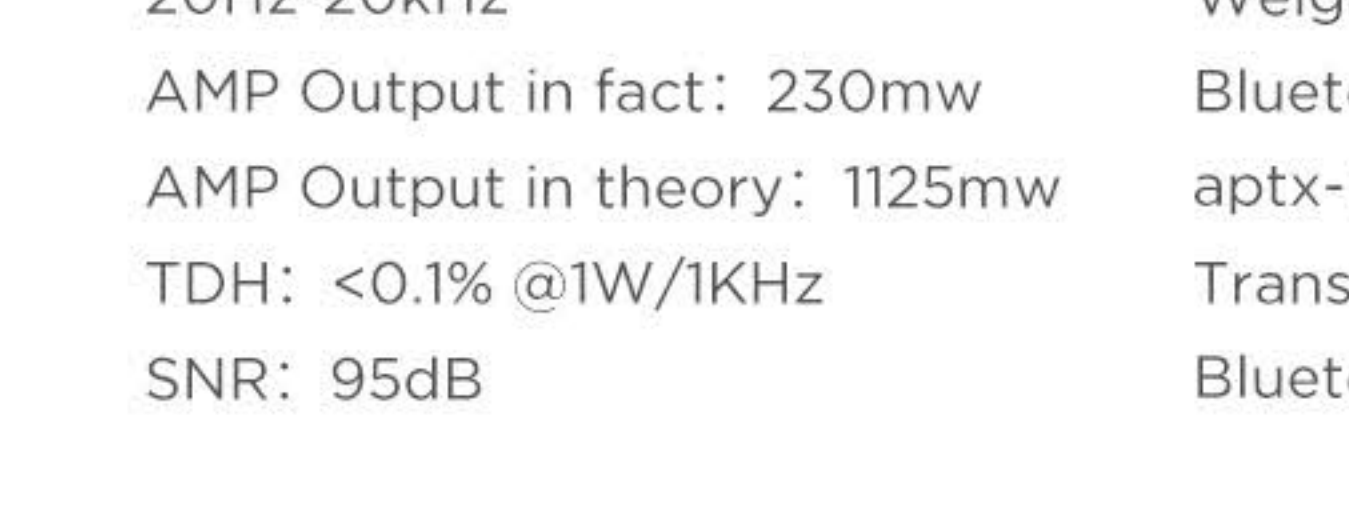

USB

USB DAC via USB-C cable

HE-R10 Planar Headphone Specs:

Frequency Response:
10-60kHz
Impedance: 30Ω
Sensitivity: 100dB
Weight: 460g
Socket: 3.5mm Balance Output

BlueMini (Optional) Specifications

Frequency Response: 20Hz-20kHz
AMP Output in fact: 230mw
AMP Output in theory: 1125mw
TDH: <0.1% @1W/1KHz
SNR: 95dB
Battery Life: 7-10Hours
Weight: 25g
Bluetooth Codecs: LDAC, aptX-HD, aptX, AAC, SBC
Transmission: Bluetooth/USB Type C
